

## Gen Y – The Pathway to Success

### Program Outline

#### Overview

Gen Y is a different kettle of fish; everybody knows it, but not many talk about it. In this session, pitched to the Gen Y contingent, we look at those distinguishing features that separate them from previous generational groups and provide ways to leverage these differences to everyone's benefit.

The purpose is to provide Gen Y's a practical understanding of what will be expected of them and what they need to know to succeed in today's workplace.

---
